P310

Immediately call a poison center/doctor.

3 Composition/information on ingredients

· Chemical characterization: Mixtures

· CAS-No. Components:

CAS: 128275-31-0 6-(phthalimido)peroxyhexanoic acid

• Additional information For the wording of the listed hazard phrases refer to section 16.

4 First-aid measures

- · Description of first aid measures
- · General information Immediately remove any clothing soiled by the product.
- After inhalation Supply fresh air; consult doctor in case of complaints.
- · After skin contact
- Immediately wash with water and soap and rinse thoroughly.
- If skin irritation continues, consult a doctor.
- After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor.
- After swallowing Rinse out mouth and then drink plenty of water.
- Do not induce vomiting; immediately call for medical help.
- Information for doctor
- \cdot Most important symptoms and effects, both acute and delayed $\mathsf{Eye}\xspace$ damage
- \cdot Indication of any immediate medical attention and special treatment needed

Symptomatic treatment

5 Fire-fighting measures

- · Extinguishing media
- · Suitable extinguishing agents

CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

- · For safety reasons unsuitable extinguishing agents not applicable
- Special hazards arising from the substance or mixture Formation of toxic gases is possible during heating or in case of fire. Product is fire encouraging.
- Advice for firefighters
- **Protective equipment:** Do not inhale explosion gases or combustion gases. Wear self-contained respiratory protective device.
- Additional information
- Cool endangered receptacles with water spray.

(Contd. of page 2) Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

6 Accidental release measures

- Personal precautions, protective equipment and emergency procedures
 Wear protective equipment. Keep unprotected persons away.
 Ensure adequate ventilation
 Avoid contact with eyes and skin.
 Environmental precautions: Do not allow product to reach sewage system or any water course.
- Methods and material for containment and cleaning up:

Absorb with liquid-binding material (sand, diatomite)

Send for recovery or disposal in suitable receptacles.

• Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

7 Handling and storage

· Handling

- Precautions for safe handling Keep away from heat and direct sunlight.
 Avoid contact with eyes and skin.
 Ensure good ventilation/exhaustion at the workplace.
- Information about protection against explosions and fires: Protect from heat.

Keep ignition sources away - Do not smoke.

- · Conditions for safe storage, including any incompatibilities
- · Storage
- Requirements to be met by storerooms and receptacles: Store only in the original receptacle. Unsuitable material for receptacle: copper
- Information about storage in one common storage facility: Store away from flammable substances.
- Further information about storage conditions: Store in cool, dry conditions in well sealed receptacles. Store receptacle in a well ventilated area. Protect from heat and direct sunlight. Protect from frost. Time of storage: max. 18 month
- Specific end use(s) Laundry

8 Exposure controls/personal protection

• Additional information about design of technical systems: No further data; see item 7.

10 Stability and reactivity

- Reactivity Danger of decomposition in case of warmth and heat influence.
- Chemical stability
 Stable under normal ambient conditions.
- No decomposition if used and stored according to specifications.
- **Possibility of hazardous reactions** Reacts with flammable substances
- Reacts with reducing agents
- · Conditions to avoid Protect from heat and direct sunlight.
- Incompatible materials: Reducing agents
- · Hazardous decomposition products: Oxygen

- Other adverse effects No further relevant information available.

13 Disposal considerations

· Waste treatment methods

· Recommendation:

Contaminated adsorbent, soil, water must be disposed of in a permitted hazardous waste management facility. Recovered products may be reused, reprocessed or incinerated or must be treated in a permitted hazardous waste management facility. It is your duty to dispose of the chemical materials and/or their containers in accordance with the Clean Air Act, The Clean Water Act, RCRA, as well as applicable Federal, State, and local Regulations regarding disposal.
